

## CLAIMS AMENDMENTS

1. (currently amended) A method for re-fixing a clothes hanger hook (12) in a clothes hanger body (11) of a clothes hanger, comprising the steps of:
  - a) wetting the clothes hanger hook (12) with a capillary flowable adhesive (17) in the region of a clothes hanger hook stem (13) above a gap (20) between the clothes hanger hook (12) and the clothes hanger body (11), and
  - b) allowing the capillary flowable adhesive (17) to flow along the clothes hanger hook stem (13) downwards to the region of a connecting point between the clothes hanger hook (12) and the clothes hanger body (11),wherein the capillary flowable adhesive (17) penetrates the gap (20) between the clothes hanger hook (12) and the clothes hanger body (11) and the capillary flowable adhesive (17) hardens in the gap (20) to minimize the movability of the clothes hanger hook (12) within the clothes hanger body (11).
2. (currently amended) The method as claimed in claim 1, wherein the capillary flowable adhesive (17) is applied to the clothes hanger hook (12) with a pipette (15) with an elastic free end.
3. (cancelled).
4. (currently amended) The method as claimed in claim 2, wherein the pipette (15) touches the clothes hanger hook in the region of the clothes hanger hook stem (13) during the application of the capillary flowable adhesive (17).
5. (cancelled).

6. (cancelled).
7. (cancelled).
8. (cancelled).
9. (cancelled).
10. (cancelled).
11. (cancelled).
12. (cancelled).
13. (cancelled).
14. (cancelled).
15. (cancelled).
16. (cancelled).
17. (cancelled).
